Who's Who?

A glance at breastfeeding support in the United States

Lactation support is often needed to help mothers initiate and continue breastfeeding. There are many kinds of help available for breastfeeding mothers including peer counselors, certified breastfeeding educators and counselors, and lactation professionals such as the International Board Certified Lactation Consultant (IBCLC©).

Breastfeeding support is valuable for a variety of reasons, from encouragement and emotional support to guidance and assistance with complex clinical situations. Mothers benefit from all kinds of support, and it is important to receive the right kind at the right time. The breastfeeding support categories listed below each play a vital role in providing care to mothers and babies.
